

INNIS & GUNN[®]
BEER KITCHEN

A WELCOME FROM OUR FOUNDER...

From day one at Innis & Gunn we've been all about flavour. Making great tasting beers is what gets us out of bed in the morning. It's in our blood and so our menus are no different. Everything we stock in our bars is the cream of the crop - an expert edit of craft beers from our like-minded brewing cousins around the globe alongside exceptional, flavour packed food. It's our mission to use the absolute best local suppliers and ingredients we can - all grown, reared, brewed and distilled by massive flavour fanatics like us. And if you're curious about anything (What beer works best with my steak? Got any hoppy IPA's? What's the meaning of life?) just ask a member of our team and they will see you right.

BOILERMAKERS

The boilermaker is essentially the American 'half an' a hauf' - beer & bourbon. Originally a drink consumed by steelworkers in the 19th Century, the boilermaker was made up of a whiskey 'shot' and beer 'chaser'. We've switched it up a little with a selection of our favourite spirits, but the idea is still the same: sip, then sip.
